PRICE 2 CENTS.

Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learned to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. J. C. Rogers of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment. In all the various weaknesses, displacements, prolapsus, inflammation and debilitating catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for women's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Naturæ Medicinæ* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination. Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth. If there is the slightest doubt in the mind of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time. It must be apparent to any person therefore that the only prevention of baldness is the use of the same germ which causes it. Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newb's Herpicide. Accept no substitute. "Destroy the cause you remove the effect." Sold by leading druggists. Send the stamps for sample to The Herpicide Co., Detroit, Mich. E. S. Leadbeater & Sons, Special Agents.

[Entered at the Postoffice at Alexandria, Virginia, as second-class matter.]

The Jews and Palestine.

A letter from Dr. Max Nordau, of Paris, containing a strong appeal for the support of the already established Jewish institutions in Palestine, around much enthusiasm at yesterday's session of the Federation of American Zionists in Tannersville, N. Y. Much interest was also shown in a communication from Prof. Otto Warburg, head of the Palestine commission, which pointed out the political, industrial and agricultural possibilities of Palestine. Particular stress was laid upon the favorable attitude now evinced toward Jewish colonization in Palestine by the Turkish government. The commission recommended the organization of commercial, industrial and agricultural syndicates for the exploiting of the resources of Palestine.

Dr. H. Pereira Mendes, president of the American branch of the Jewish Territory Association, started the convention by declaring that the report of the commission, which comes at a critical moment of Zionism, proved that there is no need for any other organization to undertake relief work for Jews as for other activities elsewhere. Palestine must come first, he said, and only when activities are impossible in Palestine need activities or relief work be undertaken elsewhere.

This statement was regarded by the convention as notice of the early dissolution of the territorial movement, and was an outlook of Zionism, and aims to secure a grant of land for a Jewish autonomous state anywhere in the world where the right to established such a state may be obtained.

Tragedy at Railroad Station.

At the union station at Bristol, Va., yesterday afternoon, John Orr, a mechanic, rushed upon George Jones, a stonecutter, on the depot platform, and fired three shots from a .32-caliber pistol into Jones' body at close range. Jones sank to the platform and blood issued from his mouth as the result of internal hemorrhages. One bullet penetrated his head, entering behind the right ear, while the two other shots entered his back, ranging upward through his lungs and coming out through his breast. The shooting was due to the alleged intimacy of Jones with Orr's wife. Orr alleged that Jones and Mrs. Orr were going away together on a trip. Before the shooting occurred Mrs. Orr had entered a coach on an eastbound train on the Norfolk and Western Railway. The train was ready to start and Jones was in the act of getting aboard when he was shot. As he fell, Jones dropped his railroad ticket on the platform, and it was for Rural Retreat, Va., the same place, it is supposed, Mrs. Orr was going. Orr ran after the shooting, but was arrested. He said he shot Jones because the latter had ruined his home. Jones was still alive early last night, but cannot recover. He gave out as his dying statement a denial of the charge of intimacy with Mrs. Orr, but said that Orr had attacked him once before during the day. After the shooting, which was witnessed by Orr's wife, she left the train, abandoning her contemplated trip.

Miners' Riot.

Investigation by the authorities of the miners' riot at Bradley Ohio, yesterday shows that one man is dead, two are fatally injured, while seven others are seriously wounded as a result of the encounter. At noon Sunday 20 guards employed at Plum Run marched into Bradley and engaged in drinking at one of the company houses. Subsequently five of them came out and fired their guns in the air. The guard stationed across the ravine imagined that miners were attacking the guards and fired upon the strikers, whereupon, as a matter of defense, the strikers retaliated.

The firing continued for nearly three hours. All but two houses in the settlement were struck with bullets from the guards' Winchester and the only way almost shot in pieces. The wives and children of the strikers fled from their homes to the cellar and the unarmed miners took refuge behind the building. The guards then crossed the ravine and attacked the strikers with fearful results. Farmers in the vicinity of Bradley appealed to Sheriff Vorhees yesterday for protection against the guards, claiming that their stock is shot down in the fields and other depredations committed by the non-residents.

The situation at Dillonville is worse than at any time since the strike was inaugurated.

Does evil still, your whole life ill. Does evil better? Your thoughts abide on suicide? You need a pill! Now for prose and facts—Dr. Williams' Little Early Risers are the most pleasant and reliable pills known today. They never gripe. Sold by W. F. Creighton & Co., 401 King Street.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhoea, pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Girl Accuses Her Uncle.

Suffering from serious wounds said to have been inflicted by her uncle, May Popkins, a fourteen-year-old white girl, of 1845 Eighth street northwest, Washington, was taken to a hospital yesterday afternoon, and physicians there state that she will probably die. The girl's skull is fractured in three places as the result of blows struck with a hammer, her jugular vein was cut, and her body contains numerous injuries inflicted with a razor. John Popkins, 24 years old, the uncle, said by the police to be responsible for the girl's condition, is also at the hospital in a critical condition from self-inflicted injuries. He is being closely guarded. The screams of the girl attracted the attention of neighbors, and when Popkins was placed under arrest he was covered with blood and still flourished the razor. The girl was unconscious. The parents of the girl reside in Tenleytown, but recently she had been staying with her aunt, where her uncle also boarded. The deed, the police allege, was prompted by insane jealousy. Popkins for some time, it is stated, has been in love with his young niece, and his attentions have been marked since they have been residing in the same house.

The New Union Station.

The Baltimore and Ohio Railroad expects to run its first trains into the new Union Station in Washington by the middle of next month. The Pennsylvania Railroad will not enter the station until sometime next spring. The station is by no means completed, and the accommodations for the ticket sellers and other employees of passenger department have not yet begun to assume the superb condition which is contemplated when the depot shall have been completed. The fact that the Baltimore and Ohio will run its trains into the new station so much ahead of the time generally agreed upon is due largely to the present difficulty encountered by the company's trains entering the old station now in use, and it has been decided by the engineer building the new station that it will be far easier to shift the tracks and have the trains come in at the new station than to longer suffer the inconvenience of the present track.

Precautions Against Lockjaw.

In anticipation of the flood of casualties that are likely to result from the celebration of the Fourth of July, the Board of Health of New York is giving out information about and distributing anti-toxin in an attempt to prevent fatalities from lockjaw. The following bulletin is given out: "Tetanus, or lockjaw, has been a frequent cause of death on Fourth of July celebrations. It is caused by tetanus germs, which exist either on the hands or in the earth used to make blank cartridges and firecrackers. When these pieces of firecrackers or cartridges have been driven deeply into the flesh, in all cases a physician should be promptly called so that the wound may be promptly cleaned and opened. As a precaution tetanus anti-toxin should be administered in all such cases. It does no harm and may prevent death from lockjaw."

Half The World Wonders

How the other half lives. Those who use Buckle's Arnica Salve never wonder if it will cure Cuts, Wounds, Burns, sores and all Skin eruptions; they know it will. Mrs. Grant Shy, 1130 E. Reynolds St., Springfield, Ill., says: "I regard it one of the absolute necessities of housekeeping." Guaranteed by E. S. Leadbeater & Sons' druggists, 2c.

Closing hours for July and August, 6 p. m., pay-days and Saturdays excepted.
